system for tender

MAIN DECK

THE MAIN DECK IS ACCESSED through a completely retractable, folding door. Past the galley area, the dinette accommodates guests. A cabinet along the starboard side provides necessary stowage for cruising in total comfort. Additional stowage is provided in the ceiling, for a total to 220 litres. The style is simple and marine-like: wood and steel are combined in rectilinear forms to make the most of the space and satisfy practical requirements.

- Miele appliance
- Wooden floor
- A/V installed

LOWER DECK

LOWER DECK con't

THE OWNER'S CABIN amidships combines elegance with classic marine styling and comfort. The walls are lined with fine American walnut panelling. Full-height wardrobes offer more than enough space to pack away and store high-quality clothing and personal items. A vanity area, set at 45 degrees in the corner opposite the head of the bed, rounds out the sensation of grand comfort. The light filled quality generated by the large window on the right bulwark is amplified by a sophisticated play of reflections.

Builder	Azimut Yachts

UNI ISO 8666

The performance described applies to a vessel with standard configuration (standard equipment installed) and a clean hull, propellers, and rudder. It is also noted that the performance described was recorded under favourable sea and wind conditions (Beaufort scale index 1, Douglas scale index 1); different and worse sea conditions could significantly impact performance.

CE Mark.

Given the continual evolution of technology, Azimut | Benetti S.p.A reserves the right to modify the technical specifications on its vessels at any time and without prior notice.
